BOARD OF EDUCATION OF THE CITY OF LOS ANGELES
Governing Board of the Los Angeles Unified School District

*ADOPTED AS AMENDED

Los Angeles, California
July 9, 2002

BOARD OF EDUCATION REPORT NO. 5

The Board of Education adopts as shown below the item submitted by the Superintendent in the following attached communication dated June 25, 2002:

FACILITIES SERVICES DIVISION REVISED NO. 7

(1)-7

Adopting resolution ordering an election and establishing specifications of the Election Order for the purpose of placing a bond measure on the November 5, 2002, election ballot to provide funds for the renovation, modernization, construction, and expansion of school facilities; approving allocation of bond proceeds as set forth; authorizing staff to develop strategic execution plans for facilities construction and existing facilities repair which reflect that allocation formula.

Respectfully submitted,

BOARD OF EDUCATION

[Signature]

President

*AMENDMENT:

Adding the following recommendation: That the Board directs the District to increase the funding in the next local bond for early childhood education facilities by $50 million, so that the funding totals $80 million.
TO: BOARD OF EDUCATION OF THE CITY OF LOS ANGELES
FROM: SUPERINTENDENT OF SCHOOLS
VIA: BOARD OF EDUCATION  *ADOPTED AS AMENDED

Facilities Services Division Revised Communication No. 7
To the Board of Education on June 25, 2002

SUBJECT: PROPOSED NOVEMBER 2002 LOCAL BOND RESOLUTION

A. PROPOSAL

It is proposed that the Board adopt the attached Resolution Ordering an Election and Establishing Specifications of the Election Order for the purpose of placing a bond measure on the November 5, 2002 election ballot to provide funds for the renovation, modernization, construction, and expansion of school facilities.

It is proposed further that Board approve allocation of funds from the $3.3 billion November 2002 Local Bond measure, if approved by the voters, as follows:

<table>
<thead>
<tr>
<th>PURPOSE</th>
<th>AMOUNT</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phase I New Construction</td>
<td>$1.6 billion</td>
<td>Estimated funds necessary for the completion of the Dec. 2001 Strategic Execution Plan for New Construction</td>
</tr>
<tr>
<td>Phase II New Construction</td>
<td>$980 million</td>
<td>Estimated funds necessary for Phase II of new construction, targeting approximately 35,000 seats in accordance with the Bond Project List</td>
</tr>
<tr>
<td>Repair of Existing School Facilities</td>
<td>$526 million</td>
<td>Estimated funds necessary to commence the next round of school repairs in accordance with the Bond Project List. (Includes: $12 million for lead and asbestos work and $128 million to be targeted towards district-identified projects of greatest need; the balance to be distributed among the 11 local districts on a per-enrollment basis)</td>
</tr>
<tr>
<td>Technology and Communication Infrastructure</td>
<td>$66 million</td>
<td>Estimated funds necessary to continue work of installing 911 access to classrooms and to connect classrooms and campuses to intranets and internet</td>
</tr>
<tr>
<td>Upgrading and Stocking Libraries</td>
<td>$38 million</td>
<td>Estimated funds for undertaking improvements to and equipping of libraries with books, inventory control and security equipment</td>
</tr>
<tr>
<td>Charter Schools</td>
<td>$50 million</td>
<td>Funds to assist the District to partner with charter schools to provide new seats to assist in the relief of overcrowding and to meet the District's responsibilities under Education Code Section 47614</td>
</tr>
</tbody>
</table>
A. PROPOSAL (CONT.)

<table>
<thead>
<tr>
<th>Early Childhood Education</th>
<th>$30 million</th>
<th>Estimated funds to assist in the expansion of some early childhood education centers, the creation of new early childhood education seats and the provision of technological infrastructure to early childhood education centers</th>

</thead>
<tbody>
<tr>
<td>Joint Use</td>
<td>$10 million</td>
<td>Estimated funds to provide new facilities opportunities to partner with other public and private entities for the joint and community use of facilities.</td>
</tr>
</tbody>
</table>

The foregoing amounts are subject to further refinement by board action should such refinement prove necessary in order to accomplish the objectives set forth in the Bond Project List that is part of the ballot measure to be approved by the voters and it is ultimately that Bond Project List, if approved by the voters, that will control the expenditure of the bond funds.

B. BACKGROUND

In order to move forward with an election to seek voter approval this November of bonds to be used to complete the new construction currently underway by the District and to begin the next phase of school repair and school construction projects, it is necessary for the Board to take specific actions pursuant to Section 1(b) of Article XIII A of the California Constitution, and Section 5320 et. seq. and Section 15264 of the California Education Code.

The attached Resolution, among other things, formally calls for an election, establishes the date of the election and the amount of the proposed bonded indebtedness. It also directs that the Executive Officer of the Board file certified copies of the Resolution with the designated public entities within a specified period of time in order to comply with the Education Code.

Exhibit A sets forth the full text of the ballot measure and the list of specific projects to be funded with proceeds of the bonds. Exhibit B provides the language required for the formal Election Notice which will be published by the County Clerk or Registrar of voters, and includes the suggested language for the measure which will appear on the election ballot. Exhibit C sets forth the Formal Notice of School Bond Election required by the Education Code at section 15120.

The Board has the opportunity to take the steps necessary to place a $3.3 billion local school facilities bond measure on the ballot for the November 2002 general election. Key to the expenditure of the bond funds will be the Bond Project List that is part of the full text of the bond measure to be voted on by the District’s electorate. In order to understand the amount of funds that is likely to be necessary to fund the projects listed on the Bond Project list, it is helpful that the Board establish the approximate amounts of the bond proceeds that will be used for various categories of needs. The proposed allocation set out above is the result of discussion with District staff, Local District Superintendents and Facilities Directors, civic leaders, and senior Facilities Division staff.

C. BUDGET IMPLICATIONS

The estimated cost to place the bond on the ballot in November 2002 is $700,000.
D. DESEGREGATION IMPACT STATEMENT

This action has been reviewed and does require a Desegregation Impact Statement which is attached.

E. RECOMMENDATION

IT IS RECOMMENDED that the Board adopt the attached Resolution Ordering an Election and Establishing Specifications of the Election Order for the purpose of placing a bond measure on the November 5, 2002 election ballot to provide funds for the renovation, modernization, construction, and expansion of school facilities.

IT IS RECOMMENDED further that the Board approve the allocation of bond proceeds as shown above, and authorize staff to develop strategic execution plans for facilities construction and existing facilities repair which reflect that allocation formula.

Respectfully submitted,

ROY ROMER
Superintendent of Schools

*AMENDMENT: Adding the following recommendation: That the Board directs the District to increase the funding in the next local bond for early childhood education facilities by $50 million, so that the funding totals $80 million.
DESEGREGATION IMPACT STATEMENT
Allocation of Proceeds From Local School Facilities Bonds
Facilities Services Division Communication No. 7
June 25, 2002

I. Category of Proposed Action:

The proposed Action will provide capital improvement.

II. Summary of Description of Current District Practice:

The District is currently implementing the $2.4 billion of repair and new construction funded by 1997 Proposition BB.

III. Proposed Change:

The proposal would provide the allocation of $3.3 billion from local bond funds for the items described in the report to the Board of Education.

IV. Effects of This Proposal:

The effects of the proposal will update and improve the facilities needs described in the report to the Board of Education and as described by the Superintendent’s Four Strategic Objectives for LAUSD.

V. Analyze the Impact of this Proposal on Integration, Desegregation, Resegregation, and / or Segregation:

This proposal would have a positive impact on five harms of racial isolation as identified in Crawford vs. Board of Education, City of Los Angeles: (1) low academic achievement, (2) low self-esteem, (3) lack of postsecondary opportunities, (4) interracial hostility and intolerance, and (5) overcrowded conditions by improving District facilities.

VI. If Proposed Action Affects Negatively Any Desegregation Program, List Other Option(s) Identified:

There will be no negative effect on any desegregation program.

APPROVED BY:

THEODORE T. ALEXANDER, JR.
Associate Superintendent
Specially Funded and Parent/Community Programs Division

RESOLUTION NO. _____

RESOLUTION OF THE BOARD OF EDUCATION OF THE LOS ANGELES UNIFIED SCHOOL DISTRICT ORDERING AN ELECTION TO AUTHORIZE UP TO $3.35 BILLION OF GENERAL OBLIGATION BONDS, AND ESTABLISHING SPECIFICATIONS OF THE ELECTION ORDER

WHEREAS, the Board of Education (the "Board") has determined that certain properties and facilities within the LOS ANGELES UNIFIED SCHOOL DISTRICT (the "District"), County of Los Angeles (the "County"), need to be constructed and improved and certain equipment purchased to enable the District to improve health and safety, reduce overcrowding, and enhance the educational opportunities of the students in the District; and

WHEREAS, in the judgment of the Board, it is in the best interest of the District to provide the funding for such needs by means of various sources including general obligation bonds; and

WHEREAS, voters of the State of California enacted Proposition 39 on November 7, 2000 (together with Chapter 1.5, Part 10, Division 1, Title 1 (commencing with Section 15264) of the Education Code which became operative and established requirements associated with the implementation of Proposition 39, "Proposition 39"), which amends Section 1(b) of Article XIII A of the California Constitution by adding a provision that exempts from the one percent of full cash value limitation, those ad valorem taxes used to pay for debt service of any bonded indebtedness of any school district or community college district for the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities, upon approval by at least 55% of the votes cast by voters voting on the proposition; and

WHEREAS, the Board desires to make certain findings herein to be applicable to this election order and to establish certain performance audits, standards of financial accountability and citizen oversight which are contained in Proposition 39; and

WHEREAS, it is hereby acknowledged that under Proposition 39 the tax rate needed to pay debt service on any bonds that will be issued will not exceed $60 per $100,000 of assessed valuation of taxable property of the District when assessed valuation is projected by the District to increase in accordance with Article XIII A of the California Constitution; and

WHEREAS, the Board has conducted an evaluation of safety, class size reduction, and information technology needs of the District, and based on that evaluation has determined that the needed improvements (the "Improvements") listed in Exhibit A hereto, and which is hereby incorporated by reference, will improve safety, reduce overcrowding and improve access to information technology; and

WHEREAS, under Proposition 39, the District will be required to conduct an annual,
independent performance audit to ensure that general obligation bond proceeds authorized by a vote pursuant to Proposition 39 have been expended only on the Improvements and the District will be required to conduct an annual, independent financial audit of the proceeds from the sale of the bonds until all such proceeds have been expended; and

WHEREAS, under legislation made effective by Proposition 39, the Board will be required to make certain adjustments to the composition and functioning of the Citizens Oversight Committee established to review and report on expenditures of general obligation bond proceeds within 60 days of the date that the Board enters the election results on its minutes, pursuant to Section 15274 of the Education Code, to inform the public concerning the expenditure of general obligation bond proceeds authorized by a vote pursuant to Proposition 39; and

WHEREAS, it is advisable to order the County Superintendent of Schools to call an election on the question of whether bonds shall be issued and sold for purposes set forth below.

NOW THEREFORE, THE BOARD OF EDUCATION OF THE LOS ANGELES UNIFIED SCHOOL DISTRICT DOES HEREBY RESOLVE, DETERMINE AND ORDER AS FOLLOWS:

Section 1. All the above recitals are true and correct and this Board of Education so finds, determines and represents.

Section 2. That the Board, pursuant to Section 15264 et seq. of the Education Code, has determined in its best judgment that an election is advisable and on that basis hereby orders the County of Los Angeles Registrar of Voters (the “Registrar of Voters”) to call an election and submit to the voters of the District the question of whether bonds of the District in the aggregate principal amount not to exceed $3.35 billion (the “Bonds”) shall be issued and sold for the purpose of raising money for the Improvements.

Section 3. That the date of the election shall be November 5, 2002.

Section 4. That the purpose of the election shall be for the voters in the District to vote on a proposition, substantially in the form attached hereto as Exhibit A and incorporated by reference herein, containing the question of whether the District shall issue the Bonds to pay for the Improvements to the extent permitted by such proposition; provided that such changes may be made as are requested or required by the Registrar of Voters and provided further that a ballot summary substantially in the form of Exhibit B attached hereto and incorporated by reference may be used as required. The full text of the ballot measure attached to this resolution as Exhibit A shall be reproduced in any official document required to contain the full statement of the bond proposition.

Section 5. That the tax rate needed to pay debt service on any Bonds issued and sold shall not exceed $60 per $100,000 of assessed valuation of taxable property of the District when assessed valuation is projected by the District to increase in accordance with Article XIII A of the California Constitution.

Section 6. That the Board certifies it has conducted an evaluation of safety, class size reduction, and information technology needs of the District, and based on that evaluation has
determined that the Improvements should improve safety, reduce overcrowding and improve access to information technology.

Section 7. That the Board certifies it will conduct an annual, independent performance audit to ensure that the funds approved by the voters have been expended only on the Improvements approved herein and by the voters and will conduct an annual, independent financial audit of the proceeds from the sale of the Bonds in accordance with Proposition 39.

Section 8. That the Board certifies that pursuant to section 53410 of the Government Code, upon approval of this proposition and the sale of any Bonds approved, the Board shall take actions necessary to establish an account in which proceeds of the sale of Bonds will be deposited. As long as any proceeds of the Bonds remain unexpended, the chief fiscal officer of the District shall cause a report to be filed no later than January 1 of each fiscal year stating 1) the amount of Bond proceeds received and expended in that year and 2) the status of any project funded or to be funded from Bond proceeds. The report may relate to the calendar year, fiscal year or other appropriate period as the chief fiscal officer shall determine and may be incorporated in the annual budget, any annual financial or performance audit, or any other appropriate routine report to the Board.

Section 9. That the Board certifies it will make adjustments to the composition and functioning of the Citizens' Oversight Committee established to review and report on expenditures of general obligation bond proceeds consistent with state law within 60 days of the date that the Board enters on its minutes pursuant to Section 15274 of the Education Code the election results, to inform the public concerning the expenditures of proceeds of the Bonds.

Section 10. That any Bonds issued pursuant to Section 15100 et seq. of the Education Code shall have a maturity not exceeding twenty-five (25) years, and bonds issued pursuant to Section 53506 of the Government Code shall have a maturity of not exceeding forty (40) years and that the Bonds shall bear interest at a rate not exceeding applicable legal limits.

Section 11. That the authority for ordering the election is contained in Section 15264 et seq. of the Education Code.

Section 12. That the authority for the specifications of this election order is contained in Section 5322 of the Education Code.

Section 13. That this Resolution shall stand as the order to the County Superintendent of Schools to call an election within the boundaries of the District on November 5, 2002.

Section 14. That the Secretary of the Board (the "Secretary") is hereby directed to send a certified copy of this Resolution to the County Superintendent of Schools to be received no later than August 7, 2002.

Section 15. That the County Superintendent of Schools is hereby requested to prepare a Formal Notice of School Bond Election (the "Notice") containing the information specified in Section 15120 of the Education Code, in substantially the form attached hereto as Exhibit C.
Section 16. That pursuant to Sections 9316 and 9502 of the Elections Code, the County Superintendent of Schools is requested to publish the Notice once in a newspaper of general circulation published in the District so as to provide a reasonable time in which to prepare and print the arguments, and to permit a 10-calendar-day public examination. The Board requests that a copy of that published Notice be delivered to the Secretary, pursuant to Section 12113 of the Elections Code.

Section 17. That pursuant to Sections 5302, 5303, 5320 and 5322 of the Education Code, the County Superintendent of Schools is hereby requested to take all steps to call and hold the election in accordance with law and these specifications.

Section 18. That the Board of Supervisors of the County is authorized to canvass the returns of the election pursuant to Section 10411 of the Elections Code.

Section 19. That pursuant to Section 5303 of the Education Code and Section 10002 of the Elections Code, the Board of Supervisors of the County is requested to permit the County Superintendent of Schools to render all services necessary, including those services specified in Sections 12112 and 12105 of the Elections Code relating to the election, such services to include the publication of a Formal Notice of School Bond Election (as described herein) and the mailing of the sample ballot and tax rate statement (described in Section 9401 of the Elections Code) pursuant to the terms of Section 12112 of the Elections Code.

Section 20. That the Board requests the governing body of any such other political subdivision, or any officer otherwise authorized by law, to partially or completely consolidate such election and to further provide that the canvass be made by any body or official authorized by law to canvass the returns of the election; and that the Board consents to such consolidation.

Section 21. That the members of the Board, the Superintendent, and the other officers of the District are hereby authorized and directed, individually and collectively, to do any and all things and to execute, deliver, and perform any and all agreements and documents that they deem necessary or advisable in order to effectuate the purposes of this Resolution, including, without limitation, to prepare and submit for inclusion in the voter information pamphlet a tax rate statement and an argument in favor of passage of the ballot proposition. All actions heretofore taken by the officers and agents of the District that are in conformity with the purposes and intent of this Resolution are hereby ratified, confirmed, and approved in all respects.
PASSED AND ADOPTED by the Board of Education of the Los Angeles Unified School District this 9th day of July, 2002, by the following vote:

AYES: 6
NOES: 0
ABSTENIONS: 0
ABSENT: 0

STATE MEASURES

52 ELECTION DAY VOTER REGISTRATION. VOTER FRAUD PENALTIES. INITIATIVE STATUTE. Allows legally eligible persons to register to vote on election day. Increases criminal penalties for voter and voter registration fraud. Criminalizes conspiracy to commit voter fraud. Fiscal Impact: Annual state costs of about $6 million to fund counties for election day voter registration activities. No anticipated net county costs. Minor state administrative costs and unknown, but probably minor, state costs to enforce new election fraud offense.

COUNTY MEASURES

A EARTHQUAKE AND FIRE SAFETY BOND. To ensure that the Natural History Museum and other County Museums meet strict earthquake and fire safety standards, generate at least $250 million dollars in private donations for these facilities, provide 50% more free admissions for student groups and children, and secure fire and earthquake safe science and arts education facilities, shall the County issue up to $250 million dollars in bonds on the condition that the private donations be received first, with review by an Independent Oversight Committee?

B PRESERVATION OF TRAUMA CENTERS AND EMERGENCY MEDICAL SERVICES; BIOTERRORISM RESPONSE. To avoid the life-threatening shutdown of Los Angeles County’s trauma network, maintain and expand the trauma network countywide, ensure more timely response to critical and urgent medical emergencies and respond effectively to biological or chemical terrorism, shall all property owners pay an annual tax of three cents per square foot of improvements (buildings) or developed property?

SCHOOL LOS ANGELES UNIFIED SCHOOL DISTRICT SPECIAL ELECTION

K SAFE HEALTHY NEIGHBORHOOD SCHOOLS: To improve local schools and relieve classroom overcrowding, shall Los Angeles Unified School District repair, renovate, acquire, lease school buildings, classrooms, libraries, restrooms, science laboratories, capital projects; upgrade fire/security systems, earthquake retrofitting, lighting, heating, acquire library books; eliminate hazards of asbestos, lead paint; upgrade wiring for computers; build neighborhood schools, by issuing $3.35 billion in bonds, at legal interest rates, with guaranteed annual financial audits, citizens’ oversight committee, no money for administrators’ salaries?

END OF BALLOT
This full text of the ballot measure shall be reproduced in any official document required to contain the full statement of the bond proposition.

The Bond Project List in the following pages, which is an integral part of the proposition, lists the specific projects the Los Angeles Unified School District proposes to finance with proceeds of the Bonds. It was developed by the Board upon evaluation of, among other factors, safety, class size reduction, and information technology needs. Listed new construction, repair, rehabilitation projects and upgrades will be completed as needed at a particular school site. Each project may include a share of costs of the election and bond issuance, architectural, engineering, and similar planning costs, construction management, relocation costs, legal costs and other costs ordinarily chargeable to capital accounts under law, the costs of furnishing and equipping classrooms, and a customary contingency for unforeseen site acquisition, design, and construction costs. No bond money will be used for teacher or administrator salaries or for any operating expenses.

Approval of this measure does not guarantee that the proposed projects in the Los Angeles Unified School District that are the subject of bonds under the measure will be funded beyond the local revenues generated by the measure. The school district's proposal for the project or projects may assume the receipt of matching state funds, which could be subject to appropriation by the Legislature or approval of a statewide bond measure. The Board does not guarantee that the bonds will provide sufficient funds to allow completion of all listed projects.

The Bond Project List describes work that the Los Angeles Unified School District may undertake, provided funds are sufficient to complete the work contemplated. The final cost of each project will be determined as plans are finalized, construction bids are awarded, and projects are completed. Los Angeles Unified School District commits that no funds obtained through bonds authorized by this measure will be spent except pursuant to a master planning process that results in the approval by the Governing Board of strategic execution plans that set forth the scope of work to be undertaken for school construction and repair consistent with and subject to the Bond Project List and that provides cost estimates and proposed schedules for each project.

All expenditures by the Los Angeles Unified School District of funds obtained through bonds authorized by this measure shall be subject to the review and oversight of the Citizens' Oversight Committee, which shall review and report on all bond fund expenditures concerning whether the expenditures were consistent with the purposes for which the bonds were authorized and otherwise made pursuant to a strategic execution plan.
This Citizens’ Oversight Committee will have more expansive powers than the minimum defined in state law — the Citizens’ Oversight Committee shall have a budget sufficient to retain independent legal counsel, administrative staff, and a consultant with a background and skills in accounting or public finance, and shall have the opportunity to review and recommend for or against major projects prior to their approval by the Board of Education. The Citizens’ Oversight Committee will be entitled to access to all information concerning projects not subject to legal privilege and will have the responsibility to report to the public any information that bond funds are being spent illegally or imprudently or in a manner inconsistent with the strategic execution plans adopted by the Board of Education. The Citizens' Oversight Committee shall review annual, independent performance and financial audits of the bond fund expenditures and report to the public no less than once each year in which bond funds are being spent regarding the use of the funds.

NEW CONSTRUCTION/ACQUISITION PROJECTS

Subject to receiving matching funds from the state, the District expects to be able to create approximately 110,000 new classroom seats for District students at neighborhood schools. The District will engage in new site acquisition leasing and construction and rehabilitation of existing facilities targeted to create approximately 35,000 new elementary and secondary classroom seats to potentially enable the District to return students to neighborhood schools and begin the process of returning schools to 180-day and non-multi-tracked calendars. New schools built or rehabilitated for elementary level students may also contain set-aside space to be utilized for programming in early childhood education. The District expects to undertake the following specific projects to create new classroom space and reduce overcrowding at district schools:
LOCAL DISTRICT A

PHASE I CONSTRUCTION PROJECTS CONTEMPLATED

HIGH SCHOOL COMPLEX – Canoga Park Senior High Complex

NEW CONSTRUCTION PROJECTS CONTEMPLATED WITH BOND FUNDS

Canoga Park New Primary Center: a new Primary Center of approximately 380 seats, located at or around Canoga Ave. & Saticoy.

HIGH SCHOOL COMPLEX – Monroe Senior High Complex

NEW CONSTRUCTION PROJECTS CONTEMPLATED WITH BOND FUNDS

Monroe New Elementary School # 2: a new Elementary School of approximately 904 seats, located at or around Rayen & Noble.

Noble New Elementary School # 1: a new Elementary School of approximately 804 seats, located at or around Kester between Parthenia & Chase.

East Valley Area New Middle School # 2: a new Middle School of approximately 1620 seats, located at or around Roscoe & Noble (Van Nuys Drive-in).

East Valley Area New High School # 3: a new High School of approximately 2142 seats, located at or around Van Nuys & Lanark (Carnation).

Valley New High School # 1: a new High School of approximately 870 seats, located at or around Zelzah & Halsted (CSUN).

East Valley New Cont High School # 1: a new CH of approximately 87 seats, located at or around Van Nuys & Lanark (Carnation).

Gledhill Elementary School - Addition: a new Addition of approximately 138 seats, located on existing school site.

(Continued on next page)
FULL TEXT OF BALLOT MEASURE K (Continued)

PHASE II SEATS FOR LOCAL DISTRICT A

Additionally, the District will engage in new site acquisition, leasing and construction and rehabilitation of existing facilities targeted to create, enhance, augment or expand school facilities, to reopen closed school facilities, and to create approximately 2,420 new elementary and secondary classroom seats in Local District A to potentially enable the District to return students to neighborhood schools and begin the process of returning schools to 180-day and non-multi-tracked calendars. The number of seats to be created is approximate and may shift due to the mix of elementary and secondary seats, due to changes in demographics and in order to ensure the creation of viable projects.
LOCAL DISTRICT B

HIGH SCHOOL COMPLEX – North Hollywood Senior High Complex

NEW CONSTRUCTION PROJECTS CONTEMPLATED WITH BOND FUNDS

North Hollywood New Primary Center # 4: a new Elementary School of approximately 380 seats, located at or around Bellingham & Archwood.

North Hollywood New Elementary School # 3: a new Elementary School of approximately 766 seats, located at or around Lankershim & Tiara.

East Valley Area New Middle School # 1: a new Middle School of approximately 1620 seats, located at or around Laurel Canyon & Hamlin (Valley Plaza North).

East Valley Area New High School # 1B: a new High School of approximately 1392 seats, located at or around Vineland & Cumpston (NOHO).

Lankershim Elementary School - Addition: a new Addition of approximately 184 seats, located at or around Magnolia between Lankershim & Bakman.

Camellia Elementary School - Addition: a new Addition of approximately 368 seats, located on existing school site.

Oxnard Elementary School - Addition: a new Addition of approximately 92 seats, located on or near existing school site.

Victory Elementary School - Playground: a new playground on existing school site.

HIGH SCHOOL COMPLEX – Polytechnic Senior High Complex

NEW CONSTRUCTION PROJECTS CONTEMPLATED WITH BOND FUNDS

East Valley Area New High School # 1A Lease: a new High School of approximately 840 seats, located at or around Roscoe & Arleta (DWP Anthony Off Bldg-Lease).

East Valley Area New High School # 1A Purchase: a new High School of approximately 699 seats, located at or around Roscoe & Arleta (DWP Anthony Off Bldg Purchase).

(Continued on next page)
FULL TEXT OF BALLOT MEASURE K (Continued)

HIGH SCHOOL COMPLEX – San Fernando Senior High Complex

NEW CONSTRUCTION PROJECTS CONTEMPLATED WITH BOND FUNDS

Maclay New Primary Center: a new Primary Center of approximately 380 seats, located at or around Bordon & Terra Jay Bella.

East Valley Area New High School # 2: a new High School of approximately 1512 seats, located at or around Van Nuys & Beachy (Gemco).

Beachy Elementary School - Addition: a new Addition of approximately 276 seats, located on or near existing school site.

Fenton Charter School - Addition: a new Addition of approximately 299 seats, located on or near existing school site.

Morningside Elementary School - Addition: a new Addition of approximately 230 seats, located on or near existing school site.

San Fernando Middle School - Addition: a new Addition of approximately 162 seats, located on or near existing school site.

Pacoima - Playground: a new playground on existing school site.

PHASE II SEATS FOR LOCAL DISTRICT B

Additionally, the District will engage in new site acquisition, leasing and construction and rehabilitation of existing facilities targeted to create, enhance, augment or expand school facilities and to create approximately 4,800 new elementary and secondary classroom seats in Local District B to enhance, augment or expand school facilities and to potentially enable the District to return students to neighborhood schools and begin the process of returning schools to 180-day and non-multi-tracked calendars: The number of seats to be created is approximate and may shift due to the mix of elementary and secondary seats, due to changes in demographics and in order to ensure the creation of viable projects.
LOCAL DISTRICT C
HIGH SCHOOL COMPLEX – Van Nuys Senior High Complex
NEW CONSTRUCTION PROJECTS CONTEMPLATED WITH BOND FUNDS

Sylvan Park Elementary School - Addition: a new Addition of approximately 92 seats, located on or near existing school site.

PHASE II SEATS FOR LOCAL DISTRICT C
Additionally, the District will engage in new site acquisition, leasing and construction and rehabilitation of existing facilities targeted to create, enhance, augment or expand school facilities, to reopen closed schools, and to create approximately 4,670 new elementary and secondary classroom seats in Local District C to potentially enable the District to return students to neighborhood schools and begin the process of returning schools to 180-day and non-multi-tracked calendars: The number of seats to be created is approximate and may shift due to the mix of elementary and secondary seats, due to changes in demographics and in order to ensure the creation of viable projects.

Additionally, the District will engage in new site acquisition, leasing and construction and rehabilitation of existing facilities targeted to create, enhance, augment or expand school facilities and to create approximately 2,720 new elementary and secondary classroom seats in Local District K to potentially enable the District to return students to neighborhood schools and begin the process of returning schools to 180-day and non-multi-tracked calendars: The number of seats to be created is approximate and may shift due to the mix of elementary and secondary seats, due to changes in demographics and in order to ensure the creation of viable projects.

(Continued on next page)
NEW CONSTRUCTION PROJECTS CONTEMPLATED WITH BOND FUNDS

DISTRICTWIDE CHARTER SCHOOL FACILITIES

Provide new seats through the acquisition, purchase, lease, construction, reconstruction, furnishing and equipping of facilities for use as charter schools pursuant to a program to be adopted by the Governing Board governing the qualifications and selection of charter schools with regard to their capacity to assist in the relief of overcrowding on the District’s most impacted campuses and the need to meet the District’s responsibilities under Education Code Section 47614.

DISTRICTWIDE JOINT AND COMMUNITY USE OPPORTUNITIES

Provide new facilities opportunities through the acquisition, purchase, lease, construction, reconstruction, furnishing and equipping of joint use facilities separate from and in conjunction with other construction and repair projects. These projects will enable the District to take advantage of opportunities to partner with other public and private entities for the joint and community use of facilities, including, potentially, the expansion of family health care facilities, the expansion of early childhood development, the creation or expansion of satellite academies on non-district campuses, the addition of community parks associated with school recreational facilities, expansion of joint school and community recreational facilities, the creation and expansion of adult education facilities in partnership with other private and public entities and the creation and expansion of opportunities to share the use of facilities like parks and libraries.
REPAIR AND UPGRADE PROJECTS

Bond funds will further be committed to the repair and upgrade of the District’s existing facilities, as well as furnishing and equipping the District’s new and existing facilities pursuant to strategic execution plans to be adopted by the Board consistent with and subject to the Bond Project List.

Specific Projects to be Undertaken at Hundreds of Campuses Districtwide

Upgrade communications in thousands of classrooms to enable classrooms to have immediate access to emergency response (911) system.

Install infrastructure and equipment necessary to further internet and intranet access for students and teachers, including upgrading equipment to District specifications, and extension and upgrade of cabling and other technological and electrical infrastructure.

Provide 911 access and network and voice communications to classrooms and other areas of early childhood education centers.

Install networking, voice communications, and security measures at Skills Centers, Occupational Centers, Opportunity Schools, and Learning Centers.

Expansion of classrooms and repair and upgrade of existing Early Education Centers (including providing new capacity) to serve children in early childhood education and expansion of opportunities for special needs students in those centers.

Improvements to and equipping of libraries and media centers with instructional materials, books, inventory control and security equipment, including books to stock libraries for new schools planned and built by the District.

Lead and asbestos abatement on campuses.

The District will further undertake hundreds of projects at neighborhood schools as detailed below. Not every campus will necessarily undergo every repair and some campuses may not undergo any of the repairs listed here, as determined by the strategic execution plans adopted by the Board consistent with and subject to the Bond Project List. The schools involved and the list of projects are as follows:

Upgrade, repair, and install handicap-accessible bathroom fixtures, doors, ramps, sinks, fountains, elevators, and lifts and other access compliance projects

Install security alarms, security systems and other intrusion/security system projects

Interior painting, heating ventilation and air conditioning upgrades, lighting upgrades, plumbing, electrical upgrades, earthquake retrofitting, classroom remodeling, and other interior modernization/renovation projects

Exterior painting, heating ventilation and air conditioning upgrades, earthquake retrofitting, roofing upgrades, lighting upgrades, playground equipment repair and replacement, window repair and replacement, and other exterior modernization/renovation projects

Paving, striping, athletic fields, playgrounds, play equipment, fencing, and other site improvement projects

Additions of cafeterias, auditoriums, multi-purpose rooms and other non-classroom addition and core facilities projects.

Replace bungalows with two story modular structures, undertake structural upgrades of bungalows, and other replacement and/or structure upgrade projects

Install, upgrade and repair water lines and plumbing systems, electrical wiring and equipment, phones and telecommunication systems, communications lines, and other utility/communications upgrade projects

Repair or replacement of lockers

Repairs and improvements designed to achieve compliance with state and local building codes.
IMPARTIAL ANALYSIS OF MEASURE K

By Lloyd W. Pellman, County Counsel

Approval of Measure K would authorize the Los Angeles Unified School District ("District") to issue up to $3,350,000,000 in general obligation bonds.

Funds received from the sale of the bonds would be used only for the construction, rehabilitation and equipping of District facilities, or the acquisition or lease of real property for District facilities. No funds may be used for teacher or administrator salaries, or other school operating expenses.

As required by law, the Board of Education of the District ("Board of Education") has adopted a list of the specific school facilities projects to be funded by the sale of the bonds. The Board of Education will conduct annual, independent financial and performance audits to ensure that funds received from the sale of the bonds will have been expended only on the specific projects listed, and will appoint a citizen's oversight committee to inform the public on expenditures.

The bonds would be issued and sold at an interest rate not to exceed the maximum rate allowed by law, and would be repaid by a property tax levied upon real property located within the District over a period not to exceed forty (40) years. The tax rate levied as the result of approval of this Measure shall be no more than $60 per $100,000 of taxable property value within the District.

This Measure requires a fifty-five percent (55%) vote for passage.

NOTICE TO VOTERS

Approval of Measure K does not guarantee that the proposed project or projects in the Los Angeles Unified School District that are the subject of bonds under Measure K will be funded beyond the local revenues generated by Measure K. The school district's proposal for the project or projects may assume the receipt of matching state funds, which could be subject to appropriation by the Legislature or approval of a statewide bond measure.
ARGUMENT IN FAVOR OF MEASURE K

Our children need Measure K.

Most of our local schools are over 55 years old. Many of our children are forced to attend school in deteriorated, overcrowded classrooms.

Measure K will permit local schools to repair leaky roofs, unsanitary bathrooms, and electrical wiring. Measure K will help make urgently needed earthquake and fire safety improvements.

Many of our schools are severely overcrowded. Over the next decade our district will likely grow by 200,000 students. Measure K will help relieve overcrowding by permitting the construction of 80 new schools and 79 additions or expansions.

Measure K means children can choose to attend school in their own neighborhood, and avoid taking long bus rides to and from school.

A clean and safe learning environment reduces truancy, gang activity and drug use. Measure K will mean safer schools and neighborhoods.

Everyone knows it is cheaper to upgrade and repair schools now, before problems get worse. Measure K makes sense for taxpayers.

Measure K provides school libraries with new and modern books and technology.

By law, money from Measure K can only be spent on school buildings, classrooms and instructional materials. Not one cent will go to administrators' salaries.

Tough, independent audits and fiscal oversight will provide open, public accounting to ensure funds are spent efficiently and as promised.

Vote YES on Measure K to upgrade and repair our schools.
Vote YES on Measure K to help make sure schools are earthquake safe.
Vote YES on Measure K so that students have up-to-date libraries.
Vote YES on Measure K to help eliminate classroom overcrowding.
Vote YES on Measure K for tough, independent fiscal oversight.

Measure K is good for our children, good for our schools, good for our local economy, good for public safety and good for local taxpayers.

Vote YES on Measure K.

REBUTTAL TO ARGUMENT IN FAVOR OF MEASURE K

Measure K backers are repeating the SAME BROKEN PROMISES they gave us for Proposition BB, a record setting $2.4 billion bond for which taxpayers will be paying for another 20 years!

Do YOU remember what they told us just five years ago?

LOOK AT THEIR RECORD:

Arguments for Proposition BB said there would be an “independent Oversight Committee” to guarantee that money was spent properly and no money would be spent on administrators’ salaries.

Independent audits found the promised oversight proved meaningless. Millions of Proposition BB dollars were misspent on such things as consultants, and salaries and benefits for office personnel. Many promised projects remain incomplete and over budget.

LOOK AT YOUR TAX BILL:

L.A. Unified officials want 3.3 billion more, nearly $7 billion with interest.

Add the cost of measure K to what you are already paying for Proposition BB. For the average home, the Los Angeles Daily News estimates the annual cost at over $300 per year. On this same ballot are two more efforts by the County of Los Angeles to increase taxes. State government wants more of your money. Add it up. This amounts to real money and increasing hardship for many homeowners and renters.

L.A. Unified officials want you to forget the past, but based on their record, do you trust them? Would you buy a used car from them?

Ask yourself, do you think the Los Angeles Unified School District is doing a good job? If the answer is no, VOTE NO ON MEASURE K.

JON COUPAL
President, Howard Jarvis Taxpayers Assoc.

ERNEST DYNDA
President, United Organization of Taxpayers
ARGUMENT AGAINST MEASURE K

WARNING: The lobbying firm paid by the L.A. Unified to push this tax-increase bond also represented developers who stand to make millions if voters approve Measure K, reports the Los Angeles Times.

These are uncertain times, but what is sure is that if Measure K passes, taxes will go up. Homeowners will have a lien placed on their homes to guarantee repayment of this almost $7 billion dollar bond, including interest. Many renters will see higher rents as landlords pass on higher taxes.

Higher taxes for what?

Just five years ago voters approved Proposition BB, a $2.4 billion bond that was the largest local school bond in history.

Voters were told the need was great, the money would be carefully spent and there would be lots of oversight!

An audit released in June by State Controller Cathleen Connell shows that many promised projects remain incomplete and are over budget. The audit reveals millions of dollars have been misspent -- the bond specifically prohibited spending money on salaries, yet $87 million was spent on ineligible costs, including legal settlements, salaries and benefits for office personnel and construction management fees. Oversight proved meaningless. Connell’s report concludes that the campaign to pass Proposition BB misled voters.

“Proposition BB was a fraud on the public from start to finish,” says the Los Angeles Daily News.

Taxpayers will be paying for this “fraud” for another 20 years.

Now, the same school district that spent nearly $200 million on the Belmont Learning Center, where toxic chemicals are leaching from the ground, and is spending over $150 million on a luxurious new headquarters for top administrators, wants billions more from taxpayers.

Ask yourself, do you believe the LAUSD is doing a good job? If the answer is no, VOTE NO ON MEASURE K.

JON COUPAL
President, Howard Jarvis Taxpayers Association

ERNEST DYNDIA
President, United Organization of Taxpayers
REBUTTAL TO ARGUMENT AGAINST MEASURE K

The opponents of Measure K are misrepresenting the facts.

By state law, money from Measure K can only be spent on building and repairing schools and classrooms and providing instructional materials.

Measure K contains the toughest independent citizens’ oversight of any bond and annual audits—even stronger oversight than state law requires.

The school bond passed in 1997 has paid for over 6,000 critical school repair projects. Over 93% of the projects funded by that bond will be completed or in progress by March 2003. It was a good start, but many schools still need to be repaired and we still need to build classrooms for our kids to reduce overcrowding.

It’s no secret that the district has had problems in the past, but things are improving. The Los Angeles Times reported that State Controller Kathleen Connell “credited new leadership over the last two years for bringing new accountability to the district.”

That’s why County Supervisor Yvonne B. Burke, Mayor James Hahn, City Controller Laura Chick, former California Assembly Speaker Antonio R. Villaraigosa and former Mayor Richard Riordan strongly support Measure K.

Measure K allows our local schools to qualify for over $2 billion in state matching funds. Without Measure K, our kids will lose out and this money will go to other school districts.

Vote Yes on K for a clean, safe learning environment for our children.

Vote Yes on K to relieve classroom overcrowding.

Vote Yes on K.

STATEMENT IN COMPLIANCE - MEASURE K

An election will be held in the Los Angeles Unified School District (the "District") on November 5, 2002 for the purpose of submitting to the electors of the District the question of incurring bonded indebtedness of the District in the amount of $3,350,000,000. If such bonds are authorized and sold, the principal thereof and the interest thereon will be payable from the proceeds of tax levies made upon the taxable property in the District. The following information regarding tax rates is provided in compliance with Sections 9400-9404 of the Elections Code of California. Such information is based upon the best estimates and projections presently available from official sources, experience within the District or other demonstrable factors.

1. The best estimate of the tax rate which would be required to be levied to fund principal and interest payments on this bond issue during the first year after the sale of the first series of bonds (fiscal year 2004-05), based on estimated assessed valuations available at the time of this statement is $0.04753 per $100 ($47.53 per $100,000) of assessed valuation.

2. The best estimate of the tax rate which would be required to be levied to fund principal and interest payments on this bond issue during the first year after the sale of the last series of bonds (fiscal year 2007-08), based on estimated assessed valuations available at the time of this statement is $0.05806 per $100 ($58.06 per $100,000) of assessed valuation.

3. The best estimate of the highest tax rate which would be required to be levied to fund principal and interest payments on this bond issue, based on estimated assessed valuations available at the time of this statement is $0.05938 per $100 ($59.38 per $100,000) of assessed valuation which would apply in year 2027.

The average tax rate over the repayment period of all of the bonds (2003-04 through 2030-31) is estimated to be $0.05057 per $100 ($50.57 per $100,000) of assessed valuation.

Attention of all voters is directed to the fact that the foregoing information regarding tax rates is based upon District projections and estimates only, which are not binding on the District. The actual tax rates and the years in which they will apply may vary from those presently estimated, due to variations from these estimates in timing of the bond sales, the amount of bonds sold at any given sale, market interest rates at the time of each bond sale, and actual assessed valuations over the term of repayment of the bonds.

**PROPOSED NOVEMBER 2002 LOCAL BOND RESOLUTION**

On July 9, 2002 the Los Angeles Unified School District Board of Education adopted the attached Resolution Ordering an Election and Establishing Specifications of the Election Order for the purpose of placing a bond measure on the November 5, 2002 election ballot to provide funds for the renovation, modernization, construction and expansion of school facilities.

The Board approved the allocation of funds from the **$3.35 billion** November 2002 Local Bond measure, if approved by the voters, as follows:

<table>
<thead>
<tr>
<th>PURPOSE</th>
<th>AMOUNT</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phase I New Construction</td>
<td>$1.6 billion</td>
<td>Estimated funds necessary for the completion of the Dec. 2001 Strategic Execution Plan for New Construction</td>
</tr>
<tr>
<td>Phase II New Construction</td>
<td>$980 million</td>
<td>Estimated funds necessary for Phase II of new construction, targeting approximately 35,000 seats in accordance with the Bond Project List</td>
</tr>
<tr>
<td>Repair of Existing School Facilities</td>
<td>$526 million</td>
<td>Estimated funds necessary to commence the next round of school repairs in accordance with the Bond Project List. (Includes: $12 million for lead and asbestos work and $128 million to be targeted towards district-identified projects of greatest need and, with the balance to be distributed among the 11 local districts on a per-enrollment basis)</td>
</tr>
<tr>
<td>Technology and Communication Infrastructure</td>
<td>$66 million</td>
<td>Estimated funds necessary to continue work of installing 911 access to classrooms and to connect classrooms and campuses to intranets and internet</td>
</tr>

<td>Estimated funds for undertaking improvements to and equipping of libraries with books, inventory control and security equipment</td>
</tr>
<tr>
<td>Charter Schools</td>
<td>$50 million</td>
<td>Funds to assist the District to partner with charter schools to provide new seats to assist in the relief of overcrowding and to meet the District's responsibilities under Education Code section 47614</td>
</tr>
<tr>
<td>Early Childhood Education</td>
<td>$80 million</td>
<td>Estimated funds to assist in the expansion of some early childhood education centers, the creation of new early childhood education seats and the provision of technological infrastructure to early childhood education centers</td>
</tr>
<tr>
<td>Joint Use</td>
<td>$10 million</td>
<td>Estimated funds to provide new facilities opportunities to partner with other public and private entities for the joint and community use of facilities.</td>
</tr>
</tbody>
</table>
The foregoing amounts are subject to further refinement by board action should such refinement prove necessary in order to accomplish the objectives set forth in the Bond Project List that is part of the ballot measure to be approved by the voters and it is ultimately that Bond Project List, if approved by the voters, that will control the expenditure of the bond funds.

In order to move forward with an election to seek voter approval this November of bonds to be used to complete the new construction currently underway by the District and to begin the next phase of school repair and school construction projects, the Board took specific actions pursuant to Section I(b) of Article XIII A of the California Constitution, and Section 5320 et. Seq. and Section 15264 of the California Education Code.

The attached Resolution, among other things, formally calls for an election, establishes the date of the election and the amount of the proposed bonded indebtedness. It also directs that the Executive Officer of the Board file certified copies of the Resolution with the designated public entities within a specified period of time in order to comply with the Education Code.

Exhibit A sets forth the full text of the ballot measure and the list of specific projects to be funded with proceeds of the bonds. Exhibit B provides the language required for the formal Election Notice which will be published by the County Clerk or Registrar of voters, and includes the suggested language for the measure which will appear on the election ballot. Exhibit C sets forth the Formal Notice of School Bond Election required by the Education Code at section 15120.

The Board took the steps necessary to place a $3.35 billion local school facilities bond measure on the ballot for the November 2002 general election. Key to the expenditure of the bond funds will be the Bond Project List that is part of the full text of the bond measure to be voted on by the District’s electorate. In order to understand the amount of funds that is likely to be necessary to fund the projects listed on the Bond Project list, the Board established the approximate amounts of the bond proceeds that will be used for various categories of needs. The proposed allocation set out above is the result of discussion with Board of Education members, District staff, Local District Superintendents and Facilities Directors, civic leaders, and senior Facilities Division staff.

INFORMATIVE

DATE: July 9, 2002

TO: Members, Board of Education

FROM: Kathi Littmann, Deputy Chief Executive – New Construction

SUBJECT: NEW CONSTRUCTION PHASE I, NOVEMBER 2002 LOCAL BOND

Planning has progressed for development of a November 2002 Local Bond. The information provided below addresses a proposed amount of funds for the completion of the New Facilities Priority Plan 2001 (Phase I) construction program as identified in the December 2001 Strategic Execution Plan.

It is proposed that the Board of Education approve the allocation of $1.6 Billion from the November 2002 Local Bond monies for the completion of 159 new schools, playgrounds and additions in the New Facilities Priority Plan 2001 Program.

BACKGROUND

The 1998 Master Plan, developed in support of the Proposition BB Bond initiative, acknowledged that the anticipated growth of over 79,000 new students over a ten year period would require an extensive building program to provide sufficient seats. The 1998 Master Plan also recognized that the long term educational objective to provide sufficient facilities for every student to attend school on a single track calendar was beyond revenues anticipated in the near future.

As the district began to organize for the execution of the 1998 Master Plan, it became clear that the funds available were insufficient to meet the 1998 Master Plan initial objective of returning all students to their neighborhood schools. A revised plan, establishing the criteria for allocating both funds in hand and reasonably anticipated funds, was presented to the Board and approved in June 2000. This revised plan anticipated that the District would utilize BB funds to leverage against potential state Prop 1A funds and future state bonds, with bridge financing provided by the District as required to complete the June 2000 Priority Plan Program.

Two criteria were utilized for the June 2000 Priority Plan Program: number of students that would be “capped out” (not able to attend their resident school on a multi-track calendar) at peak year based on current demographic projections, and the number of years the school had been on multi-track calendar (or, highest need/longest harm.) See Illustration 1 - Master Plan and Escuela Project Locations. The underlying educational criteria of the 1998 Master Plan (sufficient set-asides for
New Construction Phase I Projects
July 9, 2002

special education facilities, adequate cafeteria, library, athletic and administrative spaces, for example) were retained in developing the June 2000 Priority Plan.

CATEGORIES OF PROJECTS

The projects that will be included in this allocation of funding are listed in Exhibit A of the Bond Resolution.

FUNDING REQUIREMENTS

When the June 2000 Priority Plan was approved by the Board, it was anticipated that no more than $20 Million to $70 Million would be available through the state Prop 1A funds due to the first-come, first-served requirements for filing applications (which required completed designs and proof of ownership of property prior to filing for application.) As a result of an independent lawsuit against the state, the application process was revised to even the playing field for dense urban districts and reflect greatest need areas. As of June 26, 2002 LAUSD has filed applications for $916 million in Prop 1A matching funds (which is in excess of the funds available.) Additionally, it is anticipated that the District will have applications in place to receive approximately, an additional $500 million in matching funds from the November 2002 State Bond to complete the current Phase I Program.

The anticipated matching funds still required for all projects identified in the December 2001 Strategic Execution Plan, which includes projects designed to reduce class size and site density as well as new seats, is projected at $1.6 Billion as indicated below in Chart 1 – Funding Breakdown Summary.

New Construction Phase I Projects
July 9, 2002

The current New Construction Program is aggressively meeting projected dates, with a substantial percent of land acquisition, design, and environmental clearance completed (see Chart 2 – Overall Project Status as of May 2002.) Between August 2002 and November 2002, it will be necessary for LAUSD to “bridge finance” or “front fund” projects until the state and local bonds become available, or if either of these bonds are not successful, will need to “bridge finance” until sufficient bonds become available at a future date. This “bridge financing” directly competes against all other general fund needs at a time of critical budget challenges for the District as a whole.

Los Angeles Unified School District

INFORMATIVE

DATE: July 9, 2002

TO: Members, Board of Education

FROM: Kathi Littmann, Deputy Chief Executive – New Construction

SUBJECT: NEW CONSTRUCTION PHASE II, NOVEMBER 2002 LOCAL BOND

Planning has progressed for development of a November 2002 Local Bond. The information provided below addresses a proposed amount of funds for the New Facilities Program 2002 (Phase II), the next phase of a long term, multi-phased program for the delivery of new schools.

It is proposed that the Board of Education approve the allocation of $980 million from the November 2002 Local Bond monies for the design and construction of the New Facilities Program 2002 (Phase II), the next phase in the implementation of a long term, multi-phased program intended to provide sufficient facilities to reduce overcrowding and to allow all students to attend classes on a traditional, two-semester, single track calendar.

BACKGROUND

The current New Construction Priority Program (Phase I) will provide 159 new schools, playgrounds and additions as outlined in the December 2001 Strategic Execution Plan.

It is estimated, with current retention rates and after the completion of the current Phase I program, that LAUSD will require between 120,000 to 160,000 new seats in order to provide the stated Board of Education objective of providing a neighborhood school on a single track, two semester calendar to all students.

A process for community participation and involvement in school siting and development was initiated as part of the implementation of the current New Construction Priority Program 2001 (Phase I), with limitations imposed by the reality of funding deadlines and unhoused students. As we move forward into the next step of a potentially 20 year program, competition for sites sufficient to address the entire community infrastructure, residential and commercial needs will increase dramatically. Providing these seats will require a comprehensive vision and a plan that is accepted by all of the stakeholders in LAUSD’s mission, as well as an expanded and creative set of alternate solutions to providing new seats.
New Construction Phase II Projects  
July 9, 2002

FUNDING DISTRIBUTION

Projects included in the New Facilities Program 2002 (Phase II) are intended to accomplish the following two goals:

- provide sufficient facilities to enable all students to return to their neighborhood schools, and
- provide sufficient facilities to enable all students to receive a minimum of 180 days of instruction per school year through a 1.33 density factor.

The geographic distribution and number of seats required to reach these goals are reflected in the following Chart A, and are included in the Exhibit A of the Bond Resolution.

<table>

</tr>
</tbody>
</table>

As the Strategic Execution Plan for the Program 2002 is developed, it may be necessary to shift some seats from one local district to another in response to new demographic information and in order to achieve viable projects. The specific project solutions to meet the above seating needs will be developed for submittal and approval by the Board as part of the New Construction Program 2002 (Phase II) Strategic Execution Plan (prior to individual project commitment.)

1 The stated long term objective of a single track, two semester calendar would be built at a 1.00 density factor. There are a variety of alternative calendars that could be implemented at higher density factors. For example, a Concept 6 calendar would be calculated at a 1.50 density factor, and a 4-Track calendar would be calculated at a 1.33 density factor.
New Construction Phase II Projects
July 9, 2002

It is intended that the $980 million be matched against state bond funds (anticipated in the range of $700 million from the November 2002 State Bond.)

LOCAL BOND REQUIREMENTS IDENTIFICATION PROCESS

The Strategic Execution Plan identifying the specific projects that will be performed in the New Construction Program 2002 (Phase II) will be developed over an 8 month time period, as a subset of a comprehensive plan with which the district’s long-range facilities goals may be accomplished over an extended period of time. This long term comprehensive plan is intended to provide an integrated view of best utilization of our existing campus locations, proposed new locations, and utilization of other infrastructure resources that are unique to each local district and high school complex.

A series of progressively specific solution sets will be developed for each individual district, under direction from the General Superintendent and in collaboration with local district stakeholders. These solution sets may include a wide range of projects (such as demolition and reconstruction of an existing campus with underutilized site capacity and inadequate facilities, new land acquisition with smaller footprints and vertical construction, charter schools, small satellite academies supported by a central main campus, co-location with other community support services such as family healthcare and child care.) Through this process the goals will be clearly articulated and it is intended that the proposed solutions will reflect the unique needs and opportunities of those stakeholders and their community.

A phased implementation plan will be developed from each local district’s solution concepts. Those projects which will proceed under the Phase II funding will be those that meet both the community-developed implementation plan and the Board approved priority criteria for expenditure of funds, as detailed in a comprehensive Phase II Strategic Execution Plan approved by the Board.

SUBJECT: REPAIR (OTHER THAN TECHNOLOGY), NOVEMBER 2002 LOCAL BOND

Planning has progressed for development of a November 2002 Local Bond. The information provided below addresses a proposed amount of funds for repair and modernization, the allocation of the funds for various categories of work and a process for the development and approval of detailed project execution plans. This proposed plan is provided for review and comment so any required refinements can be incorporated.

This proposed plan includes a facilities repair and modernization allocation of $526 million in funds for the November 2002 Local Bond.

LOCAL BOND REQUIREMENTS IDENTIFICATION PROCESS

It is proposed that the district will use the following repair and modernization project development and approval process:

- Under the supervision of the General Superintendent, the 11 Local Districts will develop Local District High School Complex Master Plans (defines where schools are to be built, demolished and additions provided). It is important that these Complex Master Plans be completed to be sure that the critically needed repair and modernization funds are used at appropriate schools. The data for the Complex Master Plans should be available in the January/February 2003 timeframe and this will allow the detailed project execution plans to be developed.

- Under the supervision of the General Superintendent, the 11 Local Districts will develop Repair and Modernization Project Execution Plans for schools, with appropriate community involvement, based on the Local District High School Master Plans, with the ultimate approval of the plans to be done by the Board of Education and review by the Oversight Committee.
FUNDING DISTRIBUTION

The utilization of the repair and modernization funds is proposed as follows:

- **$12 million** of repair and modernization projects will be utilized to continue district wide lead and asbestos management, testing and abatement.

- **$514 million** of the below listed categories of projects will be accomplished in the identified Local Districts. **$386 million** will be distributed to the 11 Local Districts according to their relative student populations, and **$128 million (25%)** will be distributed according to the age and condition of facilities that are not addressed solely from the student population distribution.

CATEGORIES OF PROJECTS

The following categories of repair and modernization projects will be accomplished by the Local Districts:

- Fire Life Safety (such as fire alarms, etc.)
- Access Compliance (such as handicapped access, etc.)
- Intrusion/Security Systems (such as security alarms, etc.)
- Interior Modernization/Renovation (such as painting, lighting upgrades, plumbing, electrical upgrades, classroom remodeling, etc.)
- Exterior Building Renovations (such as painting, windows, lighting, roofing, etc.)
- Site Improvements (such as paving, athletic fields, play grounds, fencing, etc.)
- Additions other than Classrooms (such as cafeteria, auditorium, etc.)
- Replacement and/or Structure Upgrade of Relocatables (such as replacing bungalows with two story modular structures, structural upgrades of bungalows, etc.)
- Utility/Communications Upgrades and Repairs (such as water, electrical, phones, communications lines, etc.)
- Lockers (such as repair or replacement, etc.)
TOTAL NUMBER OF STUDENTS IN ELEMENTARY AND SECONDARY SCHOOLS IN DISTRICTS A-K
INFORMATION FROM THE LAUSD PUPIL STATISTICS AND REPORTS
SECTION 23 May 2002

The below statistics are counts of the number of students attending schools in the local districts. The distribution of local bond funds is calculated by multiplying the percentage of students in a local district compared to the total district student population, times the funds available. Funds have been distributed to local districts based on the percentage of students attending schools in the local districts.

DATE: July 9, 2002

FROM: Margaret A. Klee, Chief Information Officer

SUBJECT: REPAIR (TECHNOLOGY), NOVEMBER 2002 LOCAL BOND

To initiate new and complete existing technology upgrades at District schools and offices, it is proposed that $66 million in technology projects be included in the new LAUSD bond authorization scheduled for voter approval in November of 2002.

CATEGORIES OF PROJECTS

The technology projects targeted for this bond are divided into the three following categories:

- Fire-Life-Safety

  Basic telephone systems needed so that emergency calls can be made from school classrooms. Newly installed intercommunication and Public Address Systems, which were to provide telephone 911 services to the classrooms, will not provide 911 without telephone switch upgrades. The existing switches are obsolete, and vendors no longer support existing switches. To provide classroom 911 services, new voice switches at school sites located throughout the eleven local districts are needed.

  The estimated need is $11 million.

- Basic Internet and Intranet Access In All Classrooms

  Many school networks were built in segments through different projects but never integrated. This project will integrate, standardize, and complete, in addition to extending the networks throughout the campus. Work under this project will configure existing equipment and integrate all networks currently existing in isolation on school campuses.
Technology
July 9, 2002

To complete this work the District will replace equipment not meeting the District’s minimum specifications and add additional equipment and cabling, as needed, to extend and integrate networks at all Primary and K-12 schools across the entire school district.

In addition, this project will extend the cabling of local area networks at school sites to include instructional and administrative areas which were not completed under previous BB Bond and E-rate funding (i.e. Cafeteria point of sales (POS), additional offices for Special Education itinerant teachers, etc.), at all Primary and K-12 schools across the District.

The estimated total need is $30,800,000.

- Basic Access to On-Line Information and Telephone Services

Many school and administrative sites did not receive Local Area Networks or 911 services through Bond BB or the Federal E-Rate program because they were not eligible for funding or did not exist at the time. This project will provide these services to the additional sites.

After project completion, Local Area Networks, voice communications, and intrusion alarms will have been installed at Skill Centers, Regional Occupational Centers, Opportunity Schools, and Learning Centers.

The estimated total need is $24,200,000.

SUBJECT: LIBRARY PROJECTS, NOVEMBER 2002 LOCAL BOND

School district libraries are a vital part of the literacy development of elementary and secondary students. Additionally, well-equipped libraries at the secondary school level promote research and the development of literacy habits leading to life-long learning. The District has made significant strides in enhancing the library collections at all schools, at all levels, over the past three years. The District’s library book collections now average nine books per student K-12. With this number of volumes to control, libraries need up-to-date technology. Also, as new schools are built they will need to be supplied with fully stocked and equipped libraries. It is proposed that $38 million in library modernization, library technology, and library books be included in the new LAUSD bond authorization scheduled for voter approval in November of 2002.

CATEGORIES OF PROJECTS

The library projects targeted for this bond are divided into the three following categories:

- **Library Automation and Modernization for Existing Schools**
  Provide for schools across the District a standardized library automation system to control check in/out of library books, electronic cataloging of library volumes, and the balancing of library collections. This project will install or upgrade library systems in primary centers, elementary schools, secondary schools, and opportunity and special education schools. The completion of this work will establish the foundation for a district-wide catalog allowing for the sharing of library books across the District.

  In addition, secondary schools will upgrade obsolete magnetic library book security systems, to new standards, and provide security systems to secondary schools with no security systems at all.
Library Projects
July 9, 2002

- **Library Automation for Currently Planned New Schools**
  To function properly, new school libraries also need modern automation systems appropriate to the grade levels. A standardized library automation system to control check in/out of library books, electronic cataloging of library volumes, and balancing of library collections is required. Computers in libraries are also required for research, student support, and e-learning opportunities. To equip all new libraries, new school facilities will have to be outfitted. Additionally, the need exists to install magnetic book security systems at the new secondary schools. The installation of these systems will provide for the safekeeping of library books.

  The estimated total need is $8 million.

- **Library Books for New Schools**
  New schools to be built will require a new collection of library books when opened. Adequately supplied libraries are critical to the development of literacy and advanced research skills. The district-wide average is nine books/student. The average cost of a library book is $22. If properly safeguarded the life expectancy of a library book is ten years.

  The estimated total need is $18 million.

FROM: Kathi Littmann, Deputy Chief Executive – New Construction
SUBJECT: CHARTERS, NOVEMBER 2002 LOCAL BOND

INFORMATIVE

DATE: July 9, 2002

PROPOSAL

It is proposed that the Board allocate $50 Million in the November 2002 Local Bond for the purpose of acquisition, reconstruction, construction, reconstruction furnishing and equipping of facilities for use as charter schools pursuant to a program to be adopted by the Governing Board governing the qualifications and selection of charter schools with regard to their capacity to assist in the relief of overcrowding on the District’s most impacted campuses and the need to meet the District’s responsibilities under Education Code section 47614.

BACKGROUND

Recent changes in state law have dramatically changed the relationship between the District and charter schools relative to the provision of facilities. Under Proposition 39’s amendment of Education Code section 47614, beginning in July 2003, the District will have an obligation to begin working with charter schools towards allocating to charter schools enrolling District students facilities that are “reasonably equivalent” to District-operated schools. Additionally, AB 16, the legislation that placed the statewide bond measures on the ballot this November and in March 2004, provides up to $400 million for the development of charter facilities, pursuant to program legislation now under development in Sacramento. Assuming the statewide bond passes, and depending on how the charter facilities funding legislation develops, it appears that there may be new state money to enable the District to assist in charter development without ceding significant and scarce existing District classroom space to charter schools.

The proposal to apportion $50 million in local bond funds for charter school purposes attempts to meet the state funding midway and to provide the District with new, flexible options for working proactively and cooperatively with charter schools in an effort to use charter school options to provide new classrooms in our most severely overcrowded areas. The proposal also offers the District a line of resources with which it can meet obligations under Proposition 39 as those obligations become active.

SUBJECT: EARLY CHILDHOOD (INCLUDING TECHNOLOGY), NOVEMBER 2002 LOCAL BOND

It is proposed that the Board allocate $30 $80 Million in the November 2002 Local Bond for the purpose of completing and expanding facility resources available for Early Childhood education. These projects would be identified through the development of the Strategic Execution Plan for Program 2002.

BACKGROUND

Currently LAUSD provides a variety of Early Childhood programs, ranging from more than 100 Early Education Center locations to approximately 16,000 four year olds in the SRLDP program and over 60,000 students in the voluntary kindergarten programs.

Funds Allocations

In response to the Superintendent’s recognition of the importance of Early Childhood programs, it is proposed that early childhood facilities be enhanced in the following categories:

1. Expansion of Existing Early Education Centers

The following early education centers are affiliated with elementary schools classified as API 1 or 2, and have space for expansion.

<table>
<thead>
<tr>

</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>336</strong></td>
<td></td>
<td><strong>477</strong></td>
</tr>
</tbody>
</table>
Early Childhood (including Technology)
July 9, 2002

These centers can be expanded for approximately $3 Million.

It is important to note that, unlike K-12, funding for the operation of early education programs comes primarily from contracts with the California Department of Education with maximum reimbursable amounts. Once our current expansion is completed, the Early Childhood Education Division will have very limited funding to serve additional children. It will become more imperative for the District to continue to advocate for additional operating funds.

2. Renovation of Existing Early Education Centers to serve disabled children and repair of existing Centers

Currently, early education centers can not legally serve nonambulatory children who use crutches, walkers or wheelchairs because of California Department of Social Services licensing regulations. The District must provide funding to upgrade centers to meet licensing requirements for nonambulatory children. The Early Childhood Education Division is in the process of identifying the funding required to meet these requirements, and proposes to include in the November 2002 Local Bond 22 early education centers (two per district) for non-ambulatory students with special needs.

Most early education centers are more than 25 years old. Proposition BB funded many necessary repairs at early education centers, but many of these centers are still in need of funding for renovation and repair. Local districts are currently surveying schools and early education centers to determine their needs.

We estimate that approximately $8.6 million would be needed to begin to address the needed repairs at the early education centers.

3. Technological Support

Most early education programs did not receive any BB Bond funding and do not qualify for federal E-Rate Program funding to allow the local area networks for 911 telephone access from classrooms. The local area network component of this project would allow teachers and staff the ability to access student information and other district business systems. In addition, the work completed under this effort would provide 911 services to all classrooms at all the early education center sites. The estimated total need is $11 million.

4. Three New Early Education Centers

Three new Early Education Centers would provide approximately 504 new seats, affiliated with elementary API 1 or API 2 schools. During the development of the long term master plans for each local district, existing LAUSD properties would be identified with sufficient land to allow for the construction, through the use of portable classrooms, of the new Early Education Centers. The estimated total need is $7.5 million.

DATE: July 9, 2002

TO: Members, Board of Education

FROM: Kathi Littmann, Deputy Chief Executive – New Construction

SUBJECT: JOINT USE PROJECTS, NOVEMBER 2002 LOCAL BOND

It is proposed that the Board allocate $10 Million in the November 2002 Local Bond for joint use projects developed in collaboration with city, state, federal and private funds to further efficient land use policy, leverage multiple sources of funds, and create schools that are centers of community engagement both during and outside of normal school operating hours.

BACKGROUND

One of the core guiding principles for the Facilities Division, stated in the design guidelines and in the Board approved Strategic Execution Plans, is to develop schools that serve as centers of their communities. Schools are a natural gathering point for neighborhoods, they provide valuable facilities that can be used after hours for a variety of community needs, and they occupy a unique place in the culture of our region.

Joint use, as it is utilized in the LAUSD Facilities planning, falls into two primary categories:

- A capital investment of mixed funding sources utilized to develop or construct a single physical facility, under a formal legal agreement, including ongoing operational collaborative agreements
- Use of a school facility by outside individuals or groups, during or after school hours, through short term or informal agreement (such as after school athletic events, adult literacy classes, hosting community meetings.)

LAUSD has already committed to implementing the ‘schools as centers of communities’ concept in a variety of ways.
- 100% of the current new schools in development are designed to allow easier use and access by community groups and others.
- The District’s new extensive community outreach process has brought literally thousands of community members into the school development process.
- The District is already party to over 40 official joint use agreements with various agencies and cities that do everything from jointly building a new sports center to provide lights for athletic facilities in exchange for the ability of community members to use the facility after hours.

Page 1 of 4
Joint Use Projects
July 9, 2002

- Several of the new schools currently in development include a capital investment and joint ownership / operation of a facility, such as the elementary school being built within the Science Center Museum, and the turn-key development of an elementary school with an enhanced multi-purpose / gymnasium and adjacent housing development.

Those projects involving mixed funding sources and legal capital investment are complex, difficult to negotiate and require a significant commitment from all parties to continue to work through the legal, operational, cultural and other hurdles. Few public agencies have the funding and technical resources to engage in the planning and coordination effort.

Some of the bigger challenges to joint use projects include:

- Lack of capital planning
  - When the various agencies involved do not have a priority plan for future capital projects, they have no way of knowing when investing time and resources on any particular project, especially when it falls outside ‘traditional’ projects, is worthwhile. The School District has such a priority plan; hopefully, other potential partners will be able to meet this criterion.

- Lack of operational funding
  - Operating facilities ‘after hours’ costs money. Often, agencies have the best of intentions, but simply lack the operational budget to use school-based facilities after hours. This cannot be addressed through bond funding, and must be addressed through other creative methods.

- Liability issues
  - Joint liability is often one of the most difficult issues to navigate when developing joint use agreements. Increased legal costs at the outset are almost a certainty in any joint use project. Joint use projects also require legal creativity due to their unconventional nature.

- Misaligned processes and legal requirements
  - Joint use agreements are usually between large bureaucracies – the City of LA and LAUSD being the paradigmatic examples. Each institution has its own processes for gaining approvals, at both the staff and elected levels, and legal requirement. This not only doubles the effort needed to gain project approval – and requires careful shepherding by champions within both entities – but often makes it even more difficult to align these processes with available funding streams.

**FUNDING REQUIREMENTS**

The District is committed to exploring joint use projects. However, in recognition of the fact that joint use projects often take more time, effort, and resources, the District is setting aside $10 million in its proposed local school bond specifically to encourage the planning and development of further joint use and community building opportunities. Given a total bond amount of $3.3 billion, this amount approximates the $100 million set aside in the statewide school bond.
PROJECT DEVELOPMENT PROCESS

As described in a separate informative on the Phase II New Construction Program, the specific projects approved for delivery through the November 2002 Local Bond funding will be developed through a community-based, master planning process that will identify a variety of solutions to meet the District's long term facility needs. During this process, specific opportunities for joint use that are unique to each community will be identified and, based on the priority phasing of projects for each area, included in the Strategic Execution Plan. Please note that no projects will move forward into implementation until after the Strategic Execution Plan has been reviewed and approved by the Citizen's Oversight Committee and the Board of Education.

In recognition of the extra time, technical skills and coordination required to develop joint use projects with mixed funding sources, we would propose that a Joint Use Task Force be developed to assist the various community stakeholders in identifying and evaluating the opportunities, challenges and impacts of potential projects.

- The City of Los Angeles has already formed a joint use task force, which includes participants from a variety of City departments, as well as LAUSD and the Community College District. This could be enhanced into a 'higher level' Committee, with personal involvement by the Superintendent of LAUSD, Mayor of Los Angeles, and Chair of the County Board of Supervisors, as well as similar levels of participation from the other cities resident in LAUSD. The task force could advise the District, City, County, and involved agencies and Commissions on where to explore joint use opportunities and how to best leverage funding from various sources. This Committee should have a "working level" Subcommittee, and should meet regularly as the District’s new Master Plan is developed.
- A Memorandum of Understanding has been developed with many components of the replacement and affordable housing community for the current construction program, to encourage joint development and/or replacement housing in the areas where school sites are required. Specific interest groups, such as the housing, health care, and child care, could be developed as working groups to provide additional resources for community stakeholders in identifying potential joint use development opportunities.
Examples of potential types of joint use projects are as follows:

<table>

FROM: Kathi Littmann, Deputy Chief Executive – New Construction

SUBJECT: PROPOSED OVERSIGHT, NOVEMBER 2002 LOCAL BOND

A significant amount of time and focus has been spent by the BB Oversight Committee, the General Superintendent, and the LAUSD School Board in developing a more effective and efficient oversight relationship, recognized as essential to the delivery of projects through bond funds in a manner that is transparent, public and a responsible use of public funds.

The enhanced components of the proposed oversight committee for the November 2002 Local Bond, which goes beyond any regulatory or legal requirements, are as follows:

- Independent and appropriate technical consulting staff to advise and support the oversight committee members
- Independent legal staff to advise and support the oversight committee members
- Enhanced legal authority for access to information
- Authority to review and recommend significant projects prior to approval by the Board, through the process utilized to develop the Strategic Execution Plans
- Agreement to develop a rational system of audits and controls as appropriate to the Bond program

Following are the proposed Citizen’s Oversight Committee Charter and Memorandum of Understanding for the LAUSD School Construction, Repair and Modernization Bonds, and the corresponding Board Report for adoption. (Note that these documents are being presented for action under separate agenda item.)
TO: BOARD OF EDUCATION OF THE CITY OF LOS ANGELES  
FROM: INDEPENDENT ANALYSIS UNIT  
VIA: FACILITIES COMMITTEE

Independent Analysis Unit Communication Revised No. 1  
to the Board of Education on June 25, 2002

SUBJECT: CHARTER FOR THE BOND OVERSIGHT COMMITTEE

PROPOSAL

It is proposed to establish a charter for the BB Oversight Committee that would also serve as a framework for oversight of a November 2002 local bond issue. The proposed charter is shown in Attachment A.

The charter is the result of a collaborative effort led by the Board President, the Superintendent and the Oversight Committee Chairman to strengthen the oversight process based on what we have learned. The charter articulates the mission and purpose of the Oversight Committee and clarifies how LAUSD will support the Oversight Committee. The BB Oversight Committee discussed the proposed charter on June 18 and 26, and proposed several clarifying changes. The Superintendent and Mr. Garcia agreed on the changes shown in Attachment A.

BUDGET IMPLICATIONS

The District commits to support the Oversight Committee with General Fund resources. This becomes a legal requirement if a local bond issue is approved in November 2002. A reserve of $393,758 has been established for this purpose in the 2002-03 budget pending further discussion with the Oversight Committee.

DESSEGREGATION IMPACT

This action has been reviewed and does not require a Desegregation Impact Statement.

RECOMMENDATION

IT IS RECOMMENDED THAT the Board of Education adopt Attachment A as the charter for the Bond Oversight Committee.

PREPARED AND PRESENTED BY:

Roger Rasmussen, Director, Independent Analysis Unit
LAUSD SCHOOL CONSTRUCTION, REPAIR AND MODERNIZATION BONDS
CITIZENS' OVERSIGHT COMMITTEE
(PROPOSED) CHARTER and MEMORANDUM OF UNDERSTANDING

The Purpose of this Document

The Los Angeles Unified School District (LAUSD) Board of Education (Board) and the Independent Proposition BB Citizens' Oversight Committee (Oversight Committee) have developed this charter and memorandum of understanding (hereafter "Charter") to articulate the purpose of oversight, the role of the Oversight Committee, and the level of support LAUSD will provide the Oversight Committee.

This Charter will also serve as the framework for oversight if the anticipated November 2002 local school bond measure passes.

The Mission and Purpose of Oversight

The mission of the strong and independent Oversight Committee is to oversee the expenditure of money for the construction, repair and modernization of schools by LAUSD and to communicate its findings to the Board and the public so that school bond funds are invested as the voters intended and that projects are completed wisely and efficiently.

The shared vision between the Oversight Committee and LAUSD is to build and maintain schools that promote the full development of the child, are educationally and environmentally sound, enhance their neighborhoods through design and programming as centers of community, and reflect the wise and efficient use of limited land and public resources.

It is necessary for LAUSD to have in place strategic execution plans for school construction, repair and modernization to help ensure projects are completed as planned, on time, within budget and as the voters wanted. It is also necessary for LAUSD to have in place qualified professional staff and the management systems to develop and implement those plans.

The most critical information for school construction and modernization and for effective oversight includes:

- **Strategic execution plans for school construction, repair and modernization.** The necessary plans include a vision for the learning environment, mission, guiding principles, goals, lists of specific projects, milestones, budget, time schedules, management controls, information systems, cost controls, early warning systems, and the assignment of responsibility and accountability.
- **Monthly progress reports** to identify progress made, significant schedule and budget variances, plan revisions and current estimates for cost and completion.
- **Early warning memos** when a construction, repair or modernization project is likely to exceed the budgeted cost by five percent or more.
• A rational and timely audit system including annual financial and performance audits (as required by law), audits of new construction, repair and modernization contracts (as outlined in the Inspector General’s approved work plan), and other audits that are mutually agreed upon between the Board and the Oversight Committee.

• Independent oversight reports and evaluations by the Oversight Consultant under the direction of the Oversight Committee.

The Oversight Committee will work with LAUSD so that LAUSD has in place the necessary plans, professional staff and management systems to build schools wisely and efficiently. LAUSD agrees to provide the Oversight Committee with the necessary information and resources to engage in effective oversight not hindsight, including the critical information and resources specified in the preceding five bullet points.

The Oversight Committee is entitled to obtain information concerning school construction, repair and modernization at the same time and on the same terms and conditions as the Board, with the exception of legally privileged information such as information pertaining to litigation, personnel matters, confidential student information, labor negotiations, procurements in process and investigations of possible criminal activity. If the Oversight Committee finds it necessary to request legally privileged information, the Board will consider on a case-by-case basis the balance between the Oversight Committee’s need to know and the Board’s need and ability to protect its legal privilege.

The Oversight Committee will report its findings and recommendations to the Board and the public.

The LAUSD acknowledges its responsibility to support the Oversight Committee in ways including but not limited to the following.

LAUSD acknowledges its duty to gather, analyze and publish information necessary for the Oversight Committee and the public to understand the impact of LAUSD’s construction, repair and modernization plans, policies and practices on students and on the community. This information will enable full and fair participation by all communities in the evaluation of LAUSD’s plans to build, repair and modernize schools.

To enable the Oversight Committee to carry out its responsibilities, LAUSD agrees to present information concerning major projects to the Oversight Committee before the Board commits itself to a course of action. If a project or any component thereof will result in an impermissible expenditure of bond proceeds, all parties agree that it should be discovered at an early stage. The Oversight Committee has the responsibility and authority to recommend against the expenditure of local bond funds when LAUSD does not provide adequate information for effective oversight, or when a project or family of projects when presented in a strategic execution plan appears to be impermissible or imprudent.

LAUSD agrees to include the Oversight Committee’s recommendations as part of LAUSD’s documentation when a project or family of projects is presented to the Board for its approval.
LAUSD agrees to respond to the Oversight Committee’s recommendations in writing within 30
days, reporting either on action taken or proposed to be taken in response to each
recommendation and resolution of the Oversight Committee.

LAUSD agrees to provide the Oversight Committee with necessary technical and administrative
assistance and resources in furtherance of effective oversight. LAUSD agrees to provide the
resources to retain an Oversight Consultant, staff aide, and independent counsel, and to publish
Oversight Committee reports and recommendations on the Web and in hard copy. The Board
acknowledges that effective oversight requires the resources to get the job done.

LAUSD agrees to schedule a time certain for the Chairman of the Oversight Committee to
present each Quarterly Report at the next Board meeting after the Oversight Committee
publishes the Report. LAUSD also agrees to provide a time certain for the Chairman to report to
the Board from time to time at the Chairman's request. Oversight Committee reports will also be
available to the public on the LAUSD Website. LAUSD agrees to notify appropriate officials,
each time an Oversight Committee report is released.

The Board, Superintendent and Oversight Committee agree to engage in a dialogue that will
produce a plan by December 5, 2002 to streamline support services for facilities to insure that
schools are built, repaired and modernized under the strategic execution plan on time and within
budget.

The Board, the Superintendent, the Oversight Committee and the Inspector General are
committed to implementing the central lesson to be learned from the first audit of the BB
Program: the need for open communication, sharing of information and teamwork.

LAUSD will publicize the Inspector General’s availability to investigate allegations of waste,
fraud or abuse regarding the expenditure of local bond funds. Any public audit or report
prepared by the Inspector General will be made available on the LAUSD Website. LAUSD
agrees to notify appropriate officials, including elected officials, each time such an audit or
report is released.
Appendix A

Supporting Details

I. Oversight Committee Membership

Until such time as the voters approve a 55% bond measure as authorized by Education Code Section 15278, the Oversight Committee shall consist of members who shall serve without compensation. The membership of the Oversight Committee shall be as follows:

• The Los Angeles Area Chamber of Commerce shall appoint one of its active members to the Oversight Committee.
• The Tenth District PTSA shall appoint a member of the Oversight Committee.
• The Thirty-First District PTSA shall appoint a member of the Oversight Committee.
• The American Institute of Architects, Los Angeles Chapter shall appoint a member of the Oversight Committee.
• The Associated General Contractors of California, Los Angeles District shall appoint a member of the Oversight Committee.
• The Mayor of the City of Los Angeles shall appoint a member of the Oversight Committee.
• The Controller of the City of Los Angeles shall appoint a member of the Oversight Committee.
• The Los Angeles County Board of Supervisors shall appoint a member of the Oversight Committee from the Office of the County Auditor-Controller.
• The Los Angeles County Federation of Labor AFL-CIO shall appoint a member of the Oversight Committee.
• The American Lung Association shall appoint a member of the Oversight Committee.
• The Planning and Conservation League shall appoint a member of the Oversight Committee.

Within 60 days of the passage date that the Board enters the results of a successful 55% bond measure election in its minutes, the Board shall appoint a new Oversight Committee to oversee the expenditure of all local bond funds. The membership of the new Oversight Committee shall be as follows. (The eleven current members are noted with an asterisk (*). The five members required by state law are noted with a pound sign (#).)

• #* The Board shall appoint one member nominated by the Los Angeles Area Chamber of Commerce who is active in the Chamber of Commerce.
• * The Board shall appoint one member nominated by the Tenth District PTSA.
• * The Board shall appoint one member nominated by the Thirty-First District PTSA.
• * The Board shall appoint one member nominated by the American Institute of Architects, Los Angeles Chapter.
• * The Board shall appoint one member nominated by the Associated General Contractors of California, Los Angeles District.
• The Board shall appoint one member nominated by the Mayor of the City of Los Angeles.
• The Board shall appoint one member nominated by the Controller of the City of Los Angeles.
• The Board shall appoint one member nominated by the Los Angeles County Board of Supervisors from the Office of the County Auditor-Controller.
• The Board shall appoint one member nominated by the Los Angeles County Federation of Labor AFL-CIO.
• The Board shall appoint one member nominated by the Planning and Conservation League or another nonprofit environmental, environmental justice or civil rights group.
• The Board shall appoint one member nominated by the American Lung Association.
• The Board shall appoint one member who is the parent or guardian of a child enrolled in the LAUSD.
• The Board shall appoint one member who is the parent or guardian of a child enrolled in the LAUSD and is active in a parent-teacher organization such as the PTSA.
• The Board shall appoint one member who is active in a bona fide taxpayers’ organization.
• The Board shall appoint one member who is active in a senior citizens’ organization.

The new Oversight Committee members shall serve for a term of two years without compensation and for no more than two consecutive terms. The Board may appoint some members for one term only so that all members’ terms don’t expire at the same time.

Members are expected to attend all meetings. If a member without good reason acceptable to the Executive Committee of the Oversight Committee fails to attend either (a) two or more consecutive meetings or (b) three or more meetings in a year, then the Oversight Committee shall define the member as inactive and shall inform the Board of its action.

If a current member is inactive or if one of the nominating individuals or organizations noted above elects not to nominate a member, the Oversight Committee may request the Board to appoint a replacement or recommend specific changes in the number of members and/or composition of the Oversight Committee to the Board, consistent with state law.

No employee or official of the LAUSD shall be appointed to the Oversight Committee. No vendor, contractor, or consultant of the LAUSD shall be appointed to the Oversight Committee. Subsequent to the passage of a 55% bond measure, Oversight Committee members shall abide by Article 4 and Article 4.7 of Division 4 of Title 1 of the Government Code.

Oversight Committee members are required to sign a conflict of interest statement and to disclose any potential conflicts that may arise in the course of their service.
II. Oversight Committee Meetings and Bylaws

The Oversight Committee shall meet monthly or as the Oversight Committee shall deem necessary to conduct its business. All Oversight Committee proceedings shall be open to the public except as necessary to consider legally privileged matters consistent with state law. Notice to the public shall be provided in the same manner as the proceedings of the Board.

The Oversight Committee shall adopt bylaws regarding its internal organization. Such bylaws shall include the following:

- A majority of the active members of the Oversight Committee shall constitute a quorum.
- Recommendations to the Board to approve or disapprove a project must be approved by a majority of the active members of the Oversight Committee. Other recommendations may be approved by a majority of the active members in attendance, provided that there is a quorum.
- A provision for electing a Chairman.
- A provision for an Executive Committee.

III. Oversight Committee Reports

The Oversight Committee shall issue regular reports on the results of its activities. A report shall be issued at least quarterly. Minutes of the Oversight Committee’s proceedings and all documents received and reports issued shall be a matter of public record and be made available at Oversight Committee meetings, with the exception of any documents that are privileged or otherwise exempt from disclosure under the Public Records Act. Such minutes, documents and reports may be posted on a Website maintained by the LAUSD.

IV. LAUSD Support Services

The Board agrees to provide the Oversight Committee with reasonably necessary technical and administrative assistance and financial resources in furtherance of its mission and purpose under this Charter.

This assistance includes but is not limited to the commitment of sufficient staff time within the Facilities Division and Budget Office to prepare periodic reports that will show the Oversight Committee what projects are proposed, what each project is estimated to cost, when each project is scheduled to be completed, each project’s current stage of completion, and the final cost of the project. Facilities, Budget and other LAUSD staff will assist the Oversight Committee and its representatives in furtherance of the Oversight Committee’s mission and purpose under this Charter.

The assistance also includes the commitment of a budget of LAUSD resources for staff or consultant time to assist the Oversight Committee, including the following:
• Staff aide and office supplies budget sufficient for the Oversight Committee to prepare its agenda, distribute materials, prepare minutes, publish and distribute Quarterly Reports.

• An independent Oversight Consultant, responsible to the Oversight Committee, who can advise the Oversight Committee regarding methods LAUSD is using or could be using to construct, repair and modernize schools.

• Independent legal counsel, responsible to the Oversight Committee, to advise the Oversight Committee on relevant legal issues.

• Assistance in broadcasting and recording Oversight Committee meetings.

• A Website on which the Oversight Committee can post relevant information.

• A travel budget sufficient to allow each member of the Oversight Committee to attend one bona-fide conference or educational seminar related to California school facilities each year and to allow the Chairman to testify before a State authority if approved by a majority of Oversight Committee members.

Such support will not come from bond funds.
